

Galaxy XCover7 Enterprise Edition

SAMSUNG

Compact, reliable and robust

6.6"
display

Indispensable, resilient comfort for all business requirements. The Galaxy XCover7 was developed for use in extreme conditions. Certified to US military standard MIL-STD-810H¹, its compact, slim design combines high security with ease of use. Featuring Gorilla Glass 7 and certified to IP68² standard, the XCover7 with its 6.6" display is resistant to scratches, water, heat and dust. Thanks to the DeX software solution, it can be connected to an external monitor and function as a PC. What is more, documents can be downloaded at top speed using the latest Wi-Fi and 5G.

Galaxy XCover7 highlights

- Advanced 5G connectivity means you can be more mobile and more connected than ever before
- Ultra-resilient: IP68², Gorilla Glass 7 and MIL-STD-810H¹
- The slim, light case makes it easy to carry in any work environment
- Can be used when wearing gloves

Reliable support for every job

In today's digital world, workers need to be online and connected at all times. The Galaxy XCover7 has been upgraded and offers fast, seamless 5G connectivity along with Wi-Fi. With a replaceable 4050 mAh battery, it is a reliable companion in every situation and is easy to operate - even when wearing gloves. Further, the 50 MP main camera with dual LED flash sheds more light on dark areas everywhere.

Strong security is important when you're on the go

Business information on smartphones should never fall into the wrong hands. That's why the Galaxy XCover7 is equipped with Samsung Knox as standard and now, for the first time, it also supports Samsung Knox Vault. This security platform operates from the moment you switch on the device, and automatically monitors its security constantly. A multilayer software and hardware process protects against intruders, malware and other threats. Thanks to Enterprise Edition, the Galaxy XCover7 will also receive regular security updates for 5 years after its launch.

	Camera	50 MP main camera (f1.8) with autofocus, dual LED light; 5 MP front camera (f2.0)
	Battery	4050 mAh (replaceable)
	Interfaces	USB-C, 3.1 mm jack
	Network	5G together with Wi-Fi 5
	SIM	Nano SIM (4FF), Dual SIM + eSIM
	Sensors	Accelerometer, gyro sensor, geomagnetic sensor, light sensor, proximity sensor
	Location finding	GPS, GLONASS, Beidou, Galileo, QZSS
	Connectivity	Wi-Fi 802.11 a/b/g/n/ac 2.4 + 5 GHz, VHT80, Bluetooth v5.3, NFC
	Security	PIN, password, facial recognition, swipe, Knox
Certification	MIL-STD-810H ¹ , IP68 ² (water-resistant and dust-proof)	
Additional information	2 microphones, POGO pin charging, fast charging function, DeX	
Accessories	Delivery	USB-C/USB-C data cable, Quick Guide
Dimensions and weight	Weight	240 g
	Dimensions (W × H × D)	169 × 80.1 × 10.2 mm

1. Protected against shocks, sand and dust, moisture, heat and cold in accordance with US military standard MIL-STD-810H.

2. IP68 provides protection against permanent immersion in water at a depth of 1.5 metres for 30 minutes and only in clear water. It does not offer protection against salt water and other liquids, in particular soapy water, alcohol and/or heated liquids. The SIM card/memory card holder must always be completely flush with the device so that no water can penetrate through it.
