

Ultra Unfolds

With the Galaxy Z Fold7, endless possibilities will unfold before your very eyes. At only 8.9 mm, it is thinner than ever, and its larger adaptive display offers more space for productivity, gaming and entertainment. Its high-power 200 MP camera with autofocus and extended image and video processing functions will take your photos to the next level. Both adaptive screens offer a brightness of up to 2600 nits, producing vivid colors and breathtaking quality. The Galaxy AI functions help you stay on top of everyday tasks with ease. The Galaxy Z Fold7 is available in Jetblack, Blue Shadow and Silver Shadow.

Galaxy Z Fold7 highlights

- Ultra-slim: 4.2 mm when unfolded / 8.9 mm when folded up
- 8.0" main display and 6.5" cover screen with a brightness of 2600 nits
- 200 MP main camera
- Snapdragon 8 Elite
- Galaxy AI functions

A sleek, brilliant design that unfolds

Experience the excellent performance of the Galaxy Z Fold7 in its slimmest design yet: at only 8.9 mm when folded up and 4.2 mm when open, the device is as light as a conventional smartphone in your hand. With its unfolded display at 8" and its 6.5" exterior screen, the Galaxy Z Fold7 features an even larger screen than previous models. You can view content easily on its large screen, or run several apps at the same time in multi-window mode. Whether folded up or in flex mode, you get to decide how your brilliance will unfold.

Breathtaking image quality

The Galaxy Z Fold7 boasts a powerful 200 MP camera that can use AI to optimize your pictures and videos. For example, the ProVisual Engine AI tool offers smart image and video processing and provides enhanced image quality in real time – even in poor lighting conditions. Its 10 MP interior camera lets you make hands-free video calls with excellent image quality in flex mode.

Smart performance with more power

Listen to up to 77 hours of music or watch up to 23 hours of videos: the Snapdragon 8 Elite processor provides more power and gives you a smooth gaming experience. The 4400 mAh battery means you can be more productive on the go – without constantly having to recharge. The inbuilt Galaxy AI functions analyze objects more quickly and more efficiently. For example, your handwriting is recognized, automatically formatted, summarized and checked by Note Assist, even when you are in a hurry. The Galaxy Z Fold7 is also waterproof and dustproof to IP48 standard.
